

Watermaster Appointment Agreement between Two Landowners
In the Heart Mountain Irrigation District

Water Agreement for Lateral _____ Headgate _____

The requirements to form a Water Association for the landowners who share this headgate have been waived due to:

We understand that a Watermaster must be appointed and will be the only individual allowed to order water for this Headgate. If at anytime a conflict arises between the two landowners a Water Association will be formed immediately and NO water will be delivered until the Water Association is formed. All water usage and excess will be billed to one G#. The District will not be responsible for keeping track of water usage for individual landowners who enter this agreement.
